

Name of the Committee/ Council:	United Nations Office on Drugs and Crime
Agenda Item:	<i>Tracking and Sanction of Organizations Related to the Production of Altered Drug-Related Substances</i>
Main Submitter:	<i>The Russian Federation</i>
Co Submitters:	<i>Syrian Arab Republic, Islamic Republic of Iran, Democratic Republic Congo</i>
Signatories:	<i>Germany, South Africa, People's Republic of China, Republic of India</i>

The United Nations Office on Drugs and Crime,

Acknowledging the problem and its roots,

Welcoming any nation to come up with great solutions,

Having studied the history of the synthetic drugs,

Fully alarmed by the growth of drug trafficking,

Keeping in mind the underlying problems,

Observing the impact on the population of the planet,

Noting further the detrimental effects caused by the problem,

Declaring an emergency state,

Desiring to resolve the issue,

Confident that the solutions will address the problem,

1. **Encourages** the establishment of a fund IFCDT (International Fund for Countering Drug Trafficking) in order to facilitate scientific progress and security enhancements in which all Member States may participate, that will provide the money and resources by the means of :
 - a. Each member shall contribute with 0.01% of their Gross Domestic Product,
 - b. Donation in materials such as, but not limited to:
 - i. High-tech computers,
 - ii. X-ray detectors,
 - iii. Drones,
 - iv. High technologically armament,
 - v. Radar systems for transporting vehicles,
 - vi. Smart detection and sensor systems,
 - vii. Business alarm systems,
 - viii. Educational materials;
2. **Approves** the strengthening of port and airport security by:
 - a. Using The International Fund to invest in and develop advanced methods of detecting drugs such as gas chromatography, mass spectrometry and X-ray technology,
 - b. Applying cargo inspections, access controls, and biometric identification for personnel by implementing different measures to make sure the port staff are not taken advantage of,
 - c. Inviting the International Criminal Police Organisation, hereinafter INTERPOL to monitor law enforcement activities, cooperate and get involved in special cases,
 - d. Using specially trained canine detection teams for carrying out shipment verifications,
 - e. Strongly inviting States to check with X-ray technology or by other reliable means at least a random sample consisting of 10% of all containers departing from or arriving to ports,
 - f. Implementing Exit Visas for shipowners and people handling exports;
3. **Accepts** the establishment of a monetary fund “Fund for Drug Prevention in Underdeveloped Countries” dedicated to providing struggling states with the necessary means to introduce rehabilitation services and financial aid to citizens attempting to quit using addictive substance:

- a. Alongside the FDPUC, a council dedicated to evaluate whether nations require money from the fund and ensuring the funds are used appropriately, formed by nations contributing to the fund, will be created,
 - b. The money will be provided by all countries fitting the G20 criteria which would contribute with 0.0005% of their Gross Domestic Product, also using .4.000 USD each year, taken directly from the International Monetary Fund, while any other countries willing to contribute may submit aid,
 - c. The money will be invested as each government sees most fit in for situation within their country, however it must meet the standards of the council of contributors,
 - d. Should $\frac{2}{3}$ of the council vote so, the monetary assistance can be suspended if mismanagement is observed,
 - e. The suspension may be lifted once $\frac{2}{3}$ of the council deem it in order,
 - f. Countries may apply so they can benefit of this fund whenever they consider,
 - g. In order for the grant to be accepted the respective country must have the following criteria:
 - i. under-investment in education and human resources,
 - ii. slow growth rates,
 - iii. low real per capita income,
 - iv. little access to health care,
 - v. high drug usage;
4. **Endorses** a collaboration with the ICJ and The Sixth Committee of the General Assembly (LEGAL) that will increasing sanctions towards a high international standard regarding the traffic of any sort of illicit substances, including drug related substances, that will establish a more restrictive legislative framework worldwide that may condemn a drug trafficker to life imprisonment, in case criteria such as: existing evidence that said the criminal has sold drugs/drug related substances to minors, looks to be part or is part of a criminal agency or drug cartel or has committed any other law violations beforehand with the mention that countries that already apply stricter sanctions may keep them unchanged;
5. **Encourages** collaboration on developing solutions between countries in the same region, that confront with trade and consumption of similar/the same substances, have values and legislation that align, similar economic state and so on, in other to maintain a open and transparent international discussion, that would facilitate collaboration, aid, while avoiding conflict, that will happen as following:
- a. Inviting representatives, that would be delegates from the domain accompanied by government representatives, of each country implicated to discuss past challenges the respective countries have undergone, solutions implemented already, their efficiency on the topic,
 - b. Venues of such meetings will be either be at either the political center of each representative country or at the headquarters of the United Nations, meaning in America, New York Manhattan;

6. **Suggests** the establishment of a 24/7 international hotline meant to be used as a medium of communication for informants which wish to anonymously provide information relating to the synthetic drug trade;
7. **Expresses its hope** towards increasing security by local authorities in collaboration with INTERPOL, with special regards towards traffic and consumption of drugs or drug related substances, at public events such as, but not limited to festivals, concerts and sport events that host over 1000 people, as they provide opportunities for such activities, by taking the following measures:
 - a. Applying random drug testings to approximately every 1 in 50 person (in a similar manner to the one played in airports),
 - b. Conducting a drug test to every person that presents symptoms related to the consumption of such products,
 - c. Checking for illicit substances the possessions of participants to the events in cause (purses, bags, jackets etc.),
 - d. Examining for such substances big packages and/or deliveries provided by sponsors and organizers of the event,
 - e. Enhancing the number of security postings inside and around said events
 - f. Requiring usage of test that can recognize generic drugs as well as synthetic ones, like:
 - i. cannabinoids,
 - ii. phenethylamines,
 - iii. phencyclidines,
 - iv. MDAM,
 - v. Fentanyl;
8. **Calls for** the creation of the “League of combating drug traffic”, meant to increase cooperation between national authorities in detecting clandestine operations to smuggle drugs in and out of national boundaries through maritime & land routes:
 - a. The signatory states may choose whether or not to participate in the league,
 - b. The league who will be directed by a joint staff system comprised of military officers of each participant, with two representatives from each state,
 - c. The league have bimonthly meetings in order to discuss possible changes in strategy regarding the fight against drug trafficking,
 - d. League members will be required to provide a minimum of 300 military personnel wich will engage in several counter trafficking operation, such as:
 - i. patrolling the borders of members states considered to be high risk,
 - ii. establishing temporary checkpoints along known drug trafficking routes,
 - iii. acting as reserves for local authorities in regions at high risk of drug related violence,
 - iv. acting as an extension of each nation national coast guard with the specialization in violent encounters,
 - e. It will use drones equipped with advanced AI technology meant to detect illegal shipments:
 - i. the necessary equipment will be obtained using funds from the IFCTD,

- ii. the equipment will be utilized strictly by the league personnel,
- f. The military personnel can be removed from any member state of the league at the request of said state or if a $\frac{2}{3}$ majority vote of the league passes;
- 9. **Endorses** the establishment of competent treatment facilities meant to reduce the risk of withdrawals, with preponderance in areas affected by poverty which will contain a mandatory 3-month course for convicted drug abusers:
 - a. Funds for the rehabilitation facilities may be requested from the CUR fund and may be granted at the discretion of a simple majority of fund members,
 - b. The facilities may request the support of internationally renowned experts,
 - c. The rehabilitation facilities may also be attended by non-convicted drug abusers and are required to function under the Hippocratic Oath;
- 10. **Invites** member states to invest in efforts to identify new psychoactive substances and improve detection methods, such as:
 - a. Research on the bases used to make already existent drugs in order to facilitate easier recognition of new altered drug-related substances by:
 - i. Analyzing natural and chemical substances that have the potential of becoming compounds for synthetic drugs,
 - ii. Further investigating the already existing altered drug-related substances by means of employing award-winning scientists from the states involved and gathering high-quality technology and resources from member states and UN quarters;
- 11. **Calls upon** imposing background research and restricting measures for candidates that wish to enter pharmaceutical industry for the safety of the people by:
 - a. Making sure that the background research is done by an assigned department of the state that will conduct personal and legal research of the candidates,
 - b. Set candidates shall not have any connections to any drug related offenses,
 - c. Taking away their right of apply to this position if found guilty,
 - d. Having more severe punishments for the candidates which are found related to drug offenses mentioned earlier;
- 12. **Recommends** the signatory States to reinstate rehabilitation programs and advertising campaigns to raise awareness regarding the use of illicit drug, by implementing the following:
 - a. Educational programs in schools on the matter by:
 - i. training school teachers and other volunteers to carry out education programs,
 - ii. allocate additional economic resources on education,
 - iii. setting up signs and posters in all public institutions regarding the risk of the use of illicit drugs,

- b. Open new rehabilitation centers with qualified personnel ensuring that:
 - i. the coverage is uniform across the State's territory,
 - ii. there are no economic barriers to access,
- c. Monitor the use of narcotics or other illicit drugs among minors and the young population and:
 - i. forward the report to the UNODC committee for it to be discussed and analyzed,
 - ii. enact policies tailored to the current situation regarding the use of illicit drugs in a specific State;

13. **Expresses its hope** for collaboration with NGOs for a community-based programme to provide services to children previously exploited by drug cartels such as, but not limited to:

- a. Education health services,
- b. Counselling,
- c. Educational training;

14. **Encourages** efforts to try breaking encrypted communications like eCommerce sites special for drug trafficking by:

- a. Hiring special professionals from countries who are well-advanced technologically and can damage communications,
- b. Encouraging every member state to try this system,
- c. Helping police to detect drug cartels easily,
- d. Reducing the amount of drugs that are distributed.
